Home learning activities weeks 7 and 8

Over the past six weeks I have given you a selection of additional activities for you to complete if possible, that is 30 different tasks.

The next two weeks I am not going to give you ten more activities but the chance to catch up on any you have missed or would like to try again. These can all be found on the previous weeks on the class 5 home learning pages.

I have also added some extra options for you from Miss Price which you can find below.

For French -

Remember when you learnt about clothing earlier in the year? Watch the video and listen to the song to remind yourself. There will be some that you know and others that are new.

https://www.bbc.co.uk/teach/class-clips-video/french-ks2-clothes-and-colours/zkhxpg8

Now for a challenge! Have a go at this game and check how many you can remember - I would definitely do 'Learn words' first as there are quite a few! And I'm really not sure how you wear an umbrella... Bon chance!

For Computing -

Choose a dragon, then embark on a quest for treasure, practising your sequencing, loops, conditional logic and debugging skills along the way. Don't be afraid to try things out and then adjust them if they don't quite work - it's all about experimenting and tinkering! There are lots of little levels. How far can you get? To level 16 would be very impressive!

Please remember to send pictures of your creations, attempts and learning to class5@hempsted.gloucs.sch.uk

Thanks you and stay safe

Mr Davis
