

English

We start this term with poetry where we will be looking at monologues. This will then be followed by a book unit where we will read Harry Potter and use the text to inspire our writing. Throughout this unit we will write stories where we will focus on speech punctuation and paragraphing. We will then write instructions and make our own potions and we will finally conclude the book by writing biographies of some of the fictional characters from the book. We will then conclude the year by looking at stories from other cultures. We will read the book *A Boy Overboard* and then write our own stories in the same style.

During the summer term we start with a focus on decimals. We will learn to add and subtract decimal numbers as well as multiplying and dividing decimals by 10, 100 and 1000.

We will then move onto a unit focused on measuring, drawing and calculating angles. This will include finding missing angles in triangles, one a straight line and around a point.

We will then move onto a position and direction unit which focuses on moving shapes through translation and reflection.

The final unit of the year focuses on measurement and we will begin with converting between different units of measurements both metric and imperial before concluding the year by learning to calculate volume.

Throughout all of these units pupils will continue to develop their fluency of number facts, reasoning and problem solving.

Science

This term in science we will start by looking at reproduction in plants and other animals. This will move onto comparing and researching the amazing differences in the life cycles of different types of animals.

In the second half of the term we will be looking at the changes in humans throughout their life cycle up to old age. Through this unit we will also cover the changes pupils go through during puberty.

P.E

Games- Athletics
- Tennis

Class 5 Summer Term.

Our Values

Hope– to have faith, confidence and high aspirations for the future.

Joy –an expression of inner joy and happiness, encouraging others so they can be a source of joy to others.

Community – being interdependent working together where everyone is feels included, needed, valued and important.

R.E

We will start by asking
‘Why is the Torah so important to Jewish people?’

looking at Jewish beliefs about God and their holy book and how they put these beliefs into practice.

We will then consider
‘What matters most to Humanists and Christians?’

thinking about what makes people good and bad, how and why people should be good and the value of a moral code.

Geography

In the first half of this term our topic is ‘Enough for Everyone.’ Through this topic we will look at how our energy is produced and the benefits and issues of renewable energy. We will also look at where our food comes from and the impact this has. We will finish by identifying our most important needs and answering the question, is there enough for everyone?’

In the second half of the term we will be studying Eastern Europe and comparing the landscape and climate to that of Britain.

Music

We will begin ‘At the movies’, focusing on **composition**, exploring music from the 1920s animated films to present day movies and learning techniques for creating soundtracks and film scores. Our next focus will be **structure** as we explore ‘Life Cycles’, with music from Monteverdi and Berio to Brahms and Liszt.

Art

This term we will be looking at ‘The Great Wave’ by Hokusai. We will investigate how it was created and the colour palette used before creating our own version in pen and watercolours.

D.T.

Our topic is ‘**Seasonality**’.
After investigating where our fruit and vegetables come from and when they are at their best, we will plan and create a healthy pasta salad using, as much as possible, seasonal ingredients

Computing

We are organisers - Using a database to order data and create charts to answer questions.

We are quiz makers – using ‘if...then...else...’ to create our own quizzes.

PSHE

The focus of PSHE the first half of this term is ‘being my best.’ Throughout this unit we will look at what it means to be grown up and how our differences are important. We will also look at keeping healthy. In the second half of the term we will focus on ‘growing and changing.’ In this unit we will look at physical and emotional changes that happen during puberty, as well as personal hygiene.

MFL

Our topics this term are:

Saying the date
The seasons
Giving a weather report
Giving a presentation about yourself and where you live
